

Want to Learn To Play We will teach you

The PCMSA Learn to Play Program is for children ages 4-5-6

This is a parent participation program where kids and parents learn to play with team members and have fun learning the fundamentals of softball. We play games and will have the super-mites come and teach our little ones some softball fun. While this program is focused on teaching young children softball skills, it also aims to get children active and teach them the values of teamwork and determination, which are applicable throughout various sports.

The program is for 20 lessons starting on April 15th, 2012 in PCMSA's opening ice-breaker tournament. This will be an hour of fun to experience a little of what Learn to Play is all about.

The cost for LTP is \$130.00 Which will include 20 lessons as well as a softball jersey with their name and favourite number on the back and a PCMSA Softball cap - both of which you will keep at the of the season. We will finish the season with a softball game played on the big diamond of McLean Field for all to watch and see how the LTP have become our future softball champions
